SUMMARY PROFILE

Computer Science graduate certified in Data Analytics, Cisco Networking, and Huawei Cloud, with practical experience in data management, web development, and network configuration. Proficient in MySQL, system troubleshooting, and full-stack project delivery. Skilled in extracting insights from datasets and collaborating effectively within technical teams. Seeking an entry-level position in Data Analytics, IT Support, Technical Support, or Network Support.

SKILLS

Networking: TCP/IP, IPv4 Subnetting, Routing, Switching, DNS, DHCP, Cisco Packet Tracer

IT Support: Windows 10/11, Microsoft Office, Hardware & Software Troubleshooting, Installation

Programming: HTML, CSS, JavaScript, React, PHP, MySQL, Python

Data & Analytics: Data Manipulation, Data Visualization, Relational Databases, MySQL, Firebase, TMDB API Integration

Tools: Git, GitHub, VS Code, Firebase

Soft Skills : Teamwork and Collaboration, Adaptability, Communication Skills

PROFESSIONAL EXPERIENCE

Frontend Developer Intern – DvCode Technologies

Feb–Apr 2026

- Developed responsive user interface components that improved usability across desktop and mobile devices.
- Resolved front-end issues identified during testing and collaborated with teammates before deployment.
- Worked with a team using Git-based version control and Agile development practices.

SELECTED PROJECTS

- **Card Management Library** – Yarn React, Node.js, Convex, TypeScript, Git, Figma.

Collaborated with a development team to build a web-based card management platform, developing responsive user interfaces and implementing features that enable users to efficiently organize and manage collectible card data.

- **Employee Wellness Management System** – React, Node.js, JavaScript, PHP, MySQL, Git.

Developed a web-based employee management system with modules for attendance tracking, leave requests, task management, performance evaluations, and notifications, supported by a relational MySQL database.

- **Academic Clearance System** – React, Node.js, JavaScript, Firebase. Git.

Designed and developed a digital clearance system that streamlines student clearance requests, enables real-time status tracking, and centralizes approval workflows using Firebase services.

- **Movie Database Application** – React, TMDB API, MySQL, PHP, Git.

Built a responsive movie discovery application that integrates with the TMDB API to display movie details, cast information, trailers, and images through a dynamic and user-friendly interface.

COMPLETIONS & CERTIFICATIONS

<i>IT Specialist - Data Analytics</i>	2026
<i>Cisco Networking Academy - Network Support and Security</i>	2026
<i>Cisco Networking Academy - Introduction to IoT</i>	2026
<i>4th Regional Cyber Security Seminar - Cyber Security Seminar</i>	2025
<i>Huawei ICT Academy - Cloud Service V3.5 Course</i>	2025
<i>Cisco Networking Academy - Introduction to Cybersecurity</i>	2023
<i>Cisco Networking Academy - Networking Basics</i>	2023
<i>Microsoft Office Specialist - Excel 2019 Associate</i>	2022
